

■ 100 Days SQL Journey

Day 25

■ Today's Topic

Using **LIKE** to find values that end with specific letters.

■ A Little Message for Today

You're getting better at asking smarter questions. Every new search pattern helps you explore data more effectively.

■ Quick Revision

Use the **%** wildcard before text to find values that end with specific characters.

```
SELECT * FROM customers WHERE customer_name LIKE '%n';
```

■ Today's SQL Missions

- Mission 1 (Very Easy): Display all customers whose customer_name ends with the letter 'n'. (Hint: Use LIKE '%n'.)
- Mission 2 (Easy): Display all employees whose first_name ends with the letter 'a'.
- Mission 3 (Easy+): Display all products whose product_name ends with the letter 'r'.
- Mission 4 (Medium): Display all departments whose department_name ends with the letter 's'.
- Mission 5 (Challenge): Display all customers whose city ends with the letter 'i'.

■ Bonus Challenge

Choose any text column and find all values ending with a letter of your choice using LIKE.

■ SQL Tip of the Day

Remember: 'A%' finds text that starts with A, while '%A' finds text that ends with A.

■ Tomorrow's Preview

Tomorrow you'll search for text that contains a specific word or letter anywhere using LIKE.

■ Git Commit Message

Completed Day 25 SQL Mission

■ Today's Progress

- Read today's revision
- Mission 1
- Mission 2
- Mission 3
- Mission 4
- Mission 5
- Bonus Challenge

■ Closing Note

You're developing an eye for patterns in data. Keep practicing every day, and these SQL skills will soon become second nature!
