

■ 100 Days SQL Journey

Day 26

■ Today's Topic

Using **LIKE** to find text that contains specific characters.

■ A Little Message for Today

You're learning to search data in flexible ways. Every pattern you master makes SQL feel more natural and powerful.

■ Quick Revision

Place the % wildcard on both sides of text to find it anywhere in a value.

```
SELECT * FROM customers WHERE customer_name LIKE '%an%';
```

■ Today's SQL Missions

- Mission 1 (Very Easy): Display all customers whose customer_name contains the letters 'an'. (Hint: Use LIKE '%an%'.)
- Mission 2 (Easy): Display all employees whose first_name contains the letter 'a'.
- Mission 3 (Easy+): Display all products whose product_name contains the word 'Pro'.
- Mission 4 (Medium): Display all departments whose department_name contains the letter 'e'.
- Mission 5 (Challenge): Display all customers whose city contains the letter 'o'.

■ Bonus Challenge

Choose any text column and find values that contain a word or letter of your choice using LIKE.

■ SQL Tip of the Day

Use '%text%' when you don't know where the text appears within a value.

■ Tomorrow's Preview

Tomorrow you'll practice the single-character wildcard _ with LIKE.

- Mission 1
- Mission 2
- Mission 3
- Mission 4
- Mission 5
- Bonus Challenge

■ Closing Note

Fantastic work! You're becoming more confident at exploring text data. Keep showing up each day—your consistency is your biggest strength.
