

■ 100 Days SQL Journey

Day 30

■ Today's Topic

Final review of **ORDER BY**, **LIKE**, **%**, and **_**.

■ A Little Message for Today

Thirty days of consistent practice is a huge achievement. Keep building one skill at a time—your future self will thank you.

■ Quick Revision

Use **ORDER BY** to organize results and **LIKE** with **%** or **_** to search text patterns.

```
SELECT product_name FROM products WHERE product_name LIKE 'S%' ORDER BY product_name;
```

■ Today's SQL Missions

- Mission 1 (Very Easy): Display all customers whose customer_name starts with 'A', sorted alphabetically.
- Mission 2 (Easy): Display employees whose first_name contains the letter 'a', sorted by first_name.
- Mission 3 (Easy+): Display products whose product_name ends with 'r', sorted by price in descending order.
- Mission 4 (Medium): Display departments whose department_name contains the letter 'e', sorted alphabetically.
- Mission 5 (Challenge): Display customers whose city starts with 'B' and ends with 'e', sorted by customer_name.

■ Bonus Challenge

Write one query that combines **LIKE** and **ORDER BY** on any text column in the database.

■ SQL Tip of the Day

Read your query from top to bottom before running it to verify the logic and syntax.

■ Tomorrow's Preview

Tomorrow you'll begin working with aggregate functions starting with **COUNT()**.

- Mission 4
- Mission 5
- Bonus Challenge

■ Closing Note

Congratulations on completing the first 30 days! You've built a strong SQL foundation. Keep your streak alive as you move into aggregation and data analysis!
